

Blast Off!

Ten, nine, eight, seven, six,
Five, four, three, two, one. (spoken)

Chorus

Blast off! We're riding in our rocket.
Blast off! Defying gravity.
Taking our place here in outer space.
We're cruisin' the galaxy.

Verse 1

We'll see the rings of Saturn.
We'll see the moons of Mars.
Who knows what wonders
Wait among the stars?

Chorus

Verse 2

We'll leave the solar system.
We'll cross the Milky Way.
Where asteroids and icy comets play.

Chorus
